

CERAM-KOTE SPG... Ceramic Epoxy

Used to protect the hull of the *Berkeley*

- 100% Solids
- High Build Corrosion Barrier
- Ceramic Novolac Epoxy Technology
- Encapsulating Ceramic Shell
- Non-shrinking Surface after Application
- Ideal for High Abrasion, Erosion and Corrosion Environments
- No VOCs
- Solvent-Free
- Specially Formulated to Repair Pitted Metal and Concrete, but Great for New Applications, as well (*i.e., storage tanks, pipelines, etc.*)
- Outstanding Adhesion to Virtually All Substrates
- Speed of Application
- Can be Applied 40 mils thick in One Pass
- Superior Turnaround Time
- Outstanding Field Results
- Excellent Test Results (*i.e., Cathodic Disbondment 100 Times Better than Conventional Fusion Bonded Epoxy Coatings*)

CERAM-KOTE COATINGS have been manufactured for nearly 20 years. We offer multiple types of epoxy and urethane systems, loaded with unique ceramic particles. We only utilize the best raw materials and offer only high performance products. If we don't currently have what you need, we can design a product for you!

For more information on CERAM-KOTE SPG and other high performance ceramic coatings, call 1-800-346-4299 or visit our website at www.ceram-kote.com.
